Why should students be interested in STEM?
- These subjects affect our lives every day, including cell phones, medical tests like MRI, space travel, clean water, and much more.
- Many of the best-paying, lowest-unemployment jobs in the country are based in STEM fields.
- STEM professionals work to solve real-world problems including cures for cancer and inventing new forms of energy to create power.

Attention Middle and High School Teachers and Administrators
Plan to Attend the 2nd Annual UNC Charlotte STEM Day
Monday, October 12, 2015 at UNC Charlotte
There is no cost to attend.
REGISTER NOW
