

CMS Middle School Alliance

December 4, 2010

Room 065 (Ground Floor) College of Education Building 8:30 am
Park in the Union Parking Deck. [Campus Map](#) *Parking is free.*

Focus: Physical Science

Come and learn with your fellow middle school science teachers about recycling and physics through discussion and activities. The activities will cover physical science grades 6 -8 matching the NC standard course of study.

Participants will receive the Math and Science of Recycling DVD and will work through activities prepared by CMS teachers.

Beverly Simmons, FastTrack National STEM Center, Atlanta, GA Ten80 Education, Inc. will be our guest presenter. Participants will receive the “The Students at the Speedway “ DVD and Beverly Simmons will lead activities associated with the DVD.

Ten80 Education is a team of engineers, scientists, teachers, professors and parents all dedicated to a single mission: To join forces to help students and teachers understand STEM subjects, STEM careers and how they affect the world around us.

Please RSVP –we have materials to order. Email Nancy Addison to reserve your spot: nancyh.addison@cms.k12.nc.us.
