About

Center for STEM Education

The Center matches the STEM and education resources of UNC Charlotte to meet the needs of the surrounding schools to improve K-12 mathematics, science, and engineering education in North Carolina.

The mission of the Center for Science, Technology, Engineering, and Mathematics Education is to promote a regional vision for STEM education and outreach, to increase capacity in leadership, and to facilitate collaborative partnerships for addressing STEM priorities PreK-16.

SMT Education Center

The North Carolina Science, Mathematics, Technology (SMT) Center is non-profit organization focused on improving education as means of providing all students in North Carolina with the knowledge and skills to have successful careers, be good citizens, and advance the economy of the state.

The goal of SMT N.C. is to engage minds through hands-on, active involvement in science, technology, engineering, and mathematics education that promotes essential cognitive skills for all students in the region.

Plan to attend the 14th Annual K-12 STEM Conference.
This event is co-sponsored by the UNC Charlotte's Center for STEM Education and the SMT Education Center
