

STEM Pre-Service Teacher Scholarship Program \$ 4 0 0 0 AWARD

Preservice Teacher Education Scholarship

Applications Due October 7, 2019

To promote STEM Education, North Carolina Space Grant is funding research projects for pre-service teachers that develop their understanding of best practices and strategies of effective teaching in K-12 schools. Pre-service teachers in this program will build on and add to the current research, knowledge and curriculum that address and align with current NASA education themes and missions.

Visit <https://tinyurl.com/SpaceGrantUNCC> for more information. Contact Dr. David Pugalee at david.pugalee@uncc.edu with application assistance and questions.

Activities

- Participate in cohort webinars
- Participate in field trip to NASA Langley Research Center
